

Gateway Cottonseed Oil[®]

Cottonseed oil is a cooking oil extracted from the seeds of cotton plants that are grown for cotton fiber, animal feed, and oil. A whole cottonseed contains about 15 to 20 percent oil. Cottonseed Oil has one of the highest levels of saturated fat among cooking oils, and has a high content of polyunsaturated fatty acids, especially linoleic acid (omega 6), offering beneficial effects on the circulatory system.

Gateway Cottonseed Oil is a refined, bleached, and deodorized (RBD) cottonseed oil. It is commonly used in the food industry in salad dressings and mayonnaise. It has long been the gold standard in potato chip and snack food production because of the good flavor it helps to achieve.
