

Gateway Winterized Cottonseed Oil[®]

Cottonseed oil is a cooking oil extracted from the seeds of cotton plants that are grown for cotton fiber, animal feed, and oil. Winterization: Chilled cottonseed oil separates into a large clear phase and a smaller cloudy phase made up of higher melting point fats. The cloudy phase can be filtered out leaving the clear "winterized" fraction. This process prevents solidification which would prevent emulsification.

Gateway Winterized Cottonseed Oil is a refined, bleached, winterized, and deodorized (RBWD) cottonseed oil. It is commonly used in the food industry in salad dressings and mayonnaise, and in the Pharmaceutical Industry.
